

TECHNICAL DATA SHEET

Dunamoss Waterless Handwash

Heavy Duty Waterless Hand Cleaner

Dunamoss Waterless Handwash (DWH) is a highly effective waterless hand cleaner which contains pumice, emulsifier, and emollient oils. Pumice is natural enviro product which is non-irritating to the skin. This product contains NO hydrocarbon solvent thus making it safe for the environment. DWH is fast-acting hand cleaner for removing the heaviest grease, soil and oil.

PHYSICAL AND CHEMICAL PROPERTIES

Specific Gravity	: approx. 1.0 ± 0.1 gr/ml
Flash Point	: None
pH	: 8 ± 0.5
Appearance	: Orange viscous liquid
Odor	: Fresh Orange

BENEFITS

- DWH does not have a solvent smell. After using, hands will smell fresh lemon aroma
- The pumice will help remove tougher stains from your hand
- It will maintain soft, smooth and healthy skin even after multiple washes
- It is also non toxic, biodegradable and can be used without water

INSTRUCTION

- Apply coin size on the palm of hands
- Rub briskly to emulsify all the grease and grime
- Then wipe off the grime with cloth or paper towel, and hands will be cleaned
- If water is available, hands can also be rinsed with water

HEALTH & SAFETY

Dunamoss Waterless Handwash is unlikely to present any significant health or safety hazard when properly used in the recommended application. For further detail, please refer to Material Safety Data Sheet.
